

CloseTask™ is the energy efficient solution for closet and task illumination.

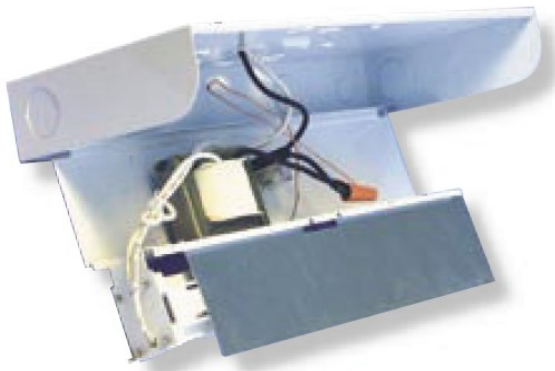

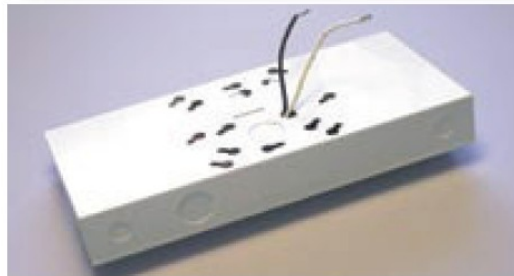

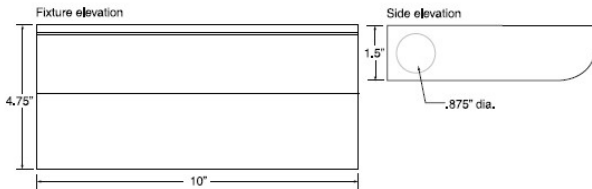

GM Lighting's CloseTask provides plenty of lighting punch in a compact 10" task light utilizing a 13W PL quick start, non-flickering fluorescent lamp, delivering a soft warm light that equals 75W incandescent

Anodized aluminum mirrored reflector.

Designer gloss white powder coat paint finish.

Snap-on acrylic diffuser

Multiple knock-outs on top, back and end caps.

CloseTask's 'Open Wide' feature (left) allows hands-free access to wiring and all keyhole slots making installation and maintenance a breeze. Top: Fixture interior shows 13W PL lamp and specular reflector - creating equivalent light output of 75W incandescent. The keyhole array (above) allows for a multitude of mounting options.

Features:

- Available with or without pull chain.
- Universal J-Box mounting
- 13W PL quick start non-flickering lamp
- Magnetic ballast
- Gloss white powder coat
- Specular reflector increases light output to equal that of 75W incandescent
- One piece opal acrylic diffuser
- Fixture and all components UL approved
